THE STAFFORD BRANCH CANAL / RIVER SOW NAVIGATION

PHOTOGRAPHS OF THE BASWICH SITE

17 JULY 2016

by

David Jones

The following photographs were taken at the Baswich Site on 17 July 2016.

Lock House site looking north.

East wall of Lock House in the foreground, hawthorn hedge and the Basin beyond.
Another view of the east wall of the Lock House, looking northwest.

View of Lock House remains, looking west.

Hawthorn hedge, towpath and Basin. Notice the stone west wall of the Basin.
Another view of the Basin.

Part of the Basin, looking east

The east side of the Basin, with the approach to the aqueduct on the left.
The north part of the Basin showing the channel which led to the aqueduct.

The end of the channel which led to the aqueduct and then the Lock.

The east side of the Basin looking southeast.
Basin, towpath and hawthorn hedge. View looking south to site of Roving Bridge.

John Potter (SRL Work Party Liaison) on site.

Staffs & Worcs Canal with signpost at the Junction of the Stafford Branch Canal.
